COLORED WOMAN KILLS MAN--IS A WORLD WAR VETERAN

DAY IS OBSERVED HERE AUSPICIOUSLY

Jupiter Pluvius Attests His Sanction of Memorial Day By Withholding His Elements—Charge of the American Legion Post

PARADE IS IMPRESSIVE

World War, Spanish-American War, Boy Scouts, Borough Firemen, And Other Organizations In Line—S. D. R. Hill And J. B. Tussing Speakers

Attesting, evidently, his sympathy and giving his endorsement to the spirit of the occasion, Jupiter Pluvius yesterday withheld his powers, and allowed old Sol to ever and anon peep through the shadows with the result that Memorial day in Charleroi was a great success.

The observance here was in formal charge of the American Legion post. In the evening prior members of the post decorated the graves of the soldier dead as they apply to the Civil war, the Spanish-American war, and the World war as interred in the Monongahela, Maple Creek, Howe Coal Center and Belle Vernon cemeteries—that is, the local dead—and in the early morning they went to the Charleroi and Calvary cemeteries, where they decorated the graves and held services.

On their return they reassembled at the American Legion rooms, and the parade, in charge of Captain E. W. Patton, was formed. This was headed by a local ban, marchers going over the principal business thoroughfares of the borough as given in the Mail of Thursday night. In the line of the parade were the Boy Scouts, Borough firemen, members of other organizations, inclusive, of course, of the veterans of the World War and the Spanish-American war.

The services in memoriam were held at the Pennsylvania Railroad station plot, as formerly. One of the features was the turning over to the Legion the formal observance of the Memorial services for the future years, accompanied by a flag. This address and presentation were made in well-chosen words by Postmaster S. D. R. Hill. The address of the day was then given by Burgess J. Bryant Tussing, and mock grave ceremonies concluded the program.

Invocation was offered by both Rev. F. S Montgomery and Rev. Father James McKeever.

In the afternoon Captain Patton took Comrade Wise and the other G A. R veterans to Belle Vernon, where they assisted in the ceremonies there.

SLAYER CLAIMS SELF DEFENSE--QUARREL SEQUEL

Claiming self defense as her motive, Mayme Silverberg, colored, aged 26, of Lexington, Kentucky, it is alleged, shot and killed Joseph Merchinson, aged 27, also colored, at their home in 1142 Schoonmaker avenue, Monessen, yesterday afternoon at 5 o'clock.

The couple, who have been living together as man and wife, came to Monessen two months ago, from Donora, where they had lived the greater part of two years. The shooting occurred after a heated argument, in which Murchinson accused Mayme of being out with other men. They started quarreling in front of their home, and continued after they had gone into the house. Mayme claims that Murchinson went to his trunk, secured a Spanish 38-calibre revolver, and threatened to kill her. Being a husky girl, Mayme wrestled the gun from his hands and shot once, the bullet piercing his heart, and he died instantly

The girl left the house, but was immediately apprehended by Officer Kichinco at the corner of Eleventh street and Donner avenue. Resisting the officer's efforts to place her under arrest, he was forced to handcuff the girl. No trace of the revolver could be found, until the accused was placed in a cell and she recovered the gun from her clothing. One shell was found to be missing, proving the statement that there had been but one shot fired. The woman readily admits her guilt, but claims that it was in self defense. She will probably be taken to Greensburg and held for the next term of court. The body of the dead man, who is a World war veteran, was removed to the undertaking establishment of John Check The man has no relatives.

DR. THOBURN'S TALK VERY IMPRESSIVE

High School Commencement Is Well Attended At Auditorium Despite the Inclemency of the Weather —Divine Gives Advice

MUSICAL FEATURES PLEASE

Prominent Among Them Is the Playing of Miss Edith Jenkins, Daughter of Mr. and Mrs. John Jenkins, a Student at Carnegie Tech

Dr Thomas R Thoburn made the address at the Commencement exercises of the Charleroi High schools Thursday night, his subject being "Some Measures of Human Worth." In his talk, the doctor gave salient advice, and upheld his reputation of being not only an orator, but a gentleman of erudition, whose address was likewise punctuated with logic.

Despite the inclemency of the weather, a large audience attested their sympathy with, and appreciation of, the exercises, and greeted the graduates and those who took part in a manner unmistakably countenancing the public schools and all they stand for.

The musical features of the program were many and of a varied and interesting nature; particularly, was the violin playing of Miss Edith Jenkins held in high regard, and the lady was given plenty of acclaim as she responded to encores.

Other features were the fine talk given by Dr Stahlman, president of the board, in presenting the diplomas, and the presentation of Curtain by Class, the speech being made by Russell Hill, president of the class.

LOADED TRUCK IS WRECKED

Frank J. Matt, truck driver employed by the Dunlevy & Franklin Packing company of Pittsburgh, had a miraculous escape from instant death Thursday morning, at eight o'clock when a large truck, filled with five tons of meats and provisions, plunged down a ten-foot embankment and overturned in Park avenue, Monongahela. Matt jumped from the car and escaped injury. The truck was badly damaged and practically all the meat was a complete loss.

Matt was enroute to Bentleyville, and at a sharp curve a short distance beyond the Stockdaletown bridge he was passing a Ward Bakery company truck traveling in an opposite direction when a Ford touring car driven by Arthur Dicker of Bentleyville, it is alleged, attempted to pass the meat truck on the left side of the road, Matt, to avoid a crash in which the three cars would figure, swerved his car from the road and it plunged over the embankment. A service truck hauled the machine to a repair shop in Pittsburgh.

TWO MEN CONFESS THEY ARE MURDERERS

Chicago, May 31—Nathan Leopold and Richard Loeb, sons of millionaire Chicago families and both law students at the University of Chicago, today confessed kidnaping and murdering Robert Franks, 14-year-old school boy, state's attorney Robert E. Crowe announced.

The confessions came after many hours of questioning. Both boys admitted killing the boy and said their motive was for the $10,000 ransom they demanded of the victim's father.

Leopold, who was traced through the finding of his eye glasses near the nude body of the slain youth, admitted writing the ransom letter, Crowe said.

The confessions bring to an end one of the most sensational murder cases in Chicago police records.

Hundreds of suspects have been held in connection with the crime and many clues have led police to cities throughout the country.

Deatails of the youths' confessions will be made public shortly, Crowe said.

Both Leopold and Loeb were completely broken physically when their confessions were made.

Leopold, who admitted plotting the crime, is the youngest graduate of the University of Chicago. He recently obtained a bachelor of philosophy degree and was continuing his studies in the law school. Loeb, his bosom companion, was also a student in the law school.

Robert was kidnaped more than a week ago, as he was returning home from school. His father, Jacob Franks, immediately notified police, and a search of the city was started.

The following morning the nude body of a boy was found near the southern city limits. Police telephoned Franks to have him identify [illegible] of his son, but the elder Franks could not be located. It developed later that he was being called from place to place throughout the city by anonymous telephone calls on "tips" as to his son's whereabouts. This was done, police believed, to delay identification of the body.

When Franks was finally located by police, he went to the morgue and

HISTORY OF FLAG IS GIVEN

The history of the flag, presented at the Memorial day services is as follows:

It was carried in honor of Abraham Lincoln, president of the United States, at his second inauguration, in a parade held in Pittsburgh. It escorted more than 1600 boys of this district, Charleroi to the front in the late war. It has lain over the bodies of all deceased old soldiers and young soldiers of Charleroi todate, May 30, 1923. This flag was carried when the news of the armistice was received in Charleroi, at the rejoicing of its citizens. It bears the streamers presented [illegible] school children of Charleroi. This flag bears the mark of a broken staff, received while on its way to duty, the same as our beloved comrades lay in a soldier's grave for you and me. Shall we forget them?

Presented to the Ladies' Auxiliary, American Legion Post No. 22, Veterans of the World War, May 30, 1923, by Jacob Wise, Co. G, 87th Pennsylvania Volunteers, Civil War.

Charleroi Finally Pries The Lid Off By Twice Defeating Strong Pittsburgh Collegians

Charleroi won both games of the opening of the baseball season in the borough yesterday; the morning contest was too one-sided to be interesting and was featured only by the batting of Consonery, who made three two-baggers and a home run drive. The Pittsburgh Collegians were the attraction. "Bill" Phillips was on the mound for the locals and Corsacko pitched for the Collegians. Both twirlers were hit pretty freely. Consonery's home run drive into the river came with the bases loaded in the sixth, and was made after two strikes had been called upon him.

In the afternoon Latriam was wild, the visitors tying the score in the sixth by virtue of a home run drive by Rush. Beatty took his place on the mound, and Charleroi, by good stickwork won out in the eighth and ninth.

This afternoon at 3:30 Scottdale is the attraction. Yesterday's scores:

Pittsburgh Wins Two Contests From The St. Louis Nationals

Just one thrill after another was furnished to 30,000 screaming baseball fans yesterday at Forbes Field, where Bill McKechnie's Buccaneers suddenly loomed up in all their pristine boldness and after laying the Cardinals beneath a shroud of whitewash in the morning tossed another wreath upon their graves in the afternoon. The score of the first holiday affair was 4-0, while the second entertainment which held the loyal cheering sections for more than two hours and a half, was settled in the fifteenth inning when only one Pirate had perished, the final count being 3-2.

The early encounter attracted more than 10,000 persons and they saw Wilbur Cooper perform some highly artistic pitching stunts. He held the enemy to six hits and refused to let more than one runner reach third base.

He was opposed by Arthur Delaney a promising right-hander who was decidedly effective. The youngster, however, received some poor support, for two of the tallies chalked up by the Pittsburghers were made possible by errors. Eight safe smacks were all the locals negotiated, just half of these wallops being made to count.

The afternoon encounter was nerve-racking all the way of game and the 20,000 customers who filled up the seating space in the big stadium got their money's worth with interest, at about 99 per cent. Lee Meadows limited the St. Louis blows to four in ten frames, and the bespectacled star would not have been removed but for the fact that Howard Freigau had just hammered his side into the lead by smacking a homer over the left garden wall. Strategy became a absolute necessity, and it worked to a charm in spite of the fact that Meadows had to make way for a pinch hitter.

MAXIMO WITH MAIN CIRCUS

Tuesday, June 3, in Monongahela, as a special feature on the Walter L. Main Circus program, Maximo will present an exhibition on the wire, which for daring seemingly impossible, artistic and amazing acts on a slender wire in midair, there is no equal in the world, without balancing pole, umbrella or any assistance from any source. Maximo remains on the wire through a series of evolutions which are original, entirely different, and decidedly the most unique wire act introduced to American circus patrons.

Maximo has appeared in the principal cities of the world presenting the same wonderful performance that is now being given at each performance of the Walter L. Main Circus. He wears a diamond medal presented by the king of Siam as an award for the excellence of the entertainment before the king and members of the royal family. He carries letters of endorsement, prizes, press comments, and programs from every civilized country in the world, confirming his modest claim of being the originator and only one to present his impersonation of a drunken man trying to walk a slack wire. This act alone is worth more than the price of admission to the circus; it can only be fully appreciated when seen; no description of the act can do it justice; there is only one Maximo and to miss seeing him is to miss one of the most remarkable performances ever presented on the program of any American circus.

Expensive Wives of Rome

So expensive were the wives of Rome that Julius Caesar was induced to offer premiums to encourage marriage. He allowed married women to dress more superbly than the unmarried and he relieved of various taxes the married man who was the father of three children.

What Lincoln Means

The name Lincoln originated from Lincoln, England. Lin signifies a pool, pond, or lake, coln the ridge or neck of a hill, and the name was applied to this locality from its situation, it occupying the top and side of a steep hill, on the river Witham.

WON'T BE SEEN ON THE BALL FIELD ON THE SABBATH

Branch Rickey, manager of the St. Louis National League Baseball Team, is probably the only notable figure in American sporting life who keeps the Sabbath in the old-fashioned way. Branch doesn't stop the team from playing on Sunday, of course; but he does not go near the park. Photo shows Branch Rickey, in street clothes, with Shotten, the field captain of the Cardinals, who runs the team on Sunday.

There are many reasons why you should do your banking at this state-chartered Institution, but we will point out here only one important one.

State banks outnumber every other kind of bank more than two to one.

Bankers keen to give their patrons every advantage would not so overwhelmingly show their preference for state charters unless they **knew** they were best.

WOMEN IN THE MINISTRY.

A leading Massachusetts newspaper, discussing the granting of ordination rights to women by the recent conference of the Methodist Episcopal church in that State, commends this "forward step" and says it is "important as a recognition of the equality of women and will be of great practical value, as eloquent speakers have made clear, in meeting difficult problems of missionary work in foreign lands." The editor quoted thinks the denomination named has taken "the broad view" of not permitting difficulties of detail to affect the principle involved in the question of the eligibility of women for the ministry.

It is a far cry from this to the dictum of Dr. Samuel Johnson about a century and a half ago. "A woman preaching," he remarked to Boswell, "is like a dog walking on its hind legs; it is not well done, but one is surprised to see it done at all." Such seventeenth and eighteenth century works at Pepys' Diary and Bosewell's Johnson are the more interesting to modern readers because of their incidental revelations of the changes in manners, customs and popular prejudices in the course of two or three hundred years. Pepys, for example, tells how startled he was to see women appear on the stage in the theatre "for the first time," women's parts having previously been, and in his time still for the most part being, played by handsome youths, in action as well as garb very cleverly representing the heroines featured in the dramas of the period. Judging from the remark of Dr. Johnson about a century later, the conservative Pepys would have gasped in horror at sight of a woman in the pulpit.

Birds May Share Fate of Antelope and Bison

America's effort to preserve her game bird supply has proved a complete failure, according to T. Gilbert Pearson, president of National Association of Audubon Societies. He says that many species of birds are declining so rapidly that they are as sure to pass as have the antelope and bison.

"Some time ago," said Mr. Pearson, "Prof. Henry Fairfield Osborne, head of the American Museum of Natural History, issued a widely quoted statement that the animal kingdom is tottering. He said that nothing in the history of creation has paralleled the ravages of the fur and hide trade, which threatens the entire vertebrate kingdom, and he added that final cause of the close of the age of mammals can only be arrested through the creation of sound sentiment and education of the women and children.

"In the same manner the bird kingdom is tottering and will fall unless the National Association of Audubon Societies keeps up its work of arresting the destruction of birds."

Shaking Mop Out Window

In a loud voice she was telling a friend in the subway of a slumming trip she had recently made. "And do you know, my dear," she said, "the people are too lazy to dispose of rubbish in the proper way. They fling it from the windows into the street. It's all your life's worth to walk down there after dark. It's a wonder some one wouldn't teach them better."

"There's a law against it, of course," the friend agreed. "But even people who know also break it. Up where I live it is a common sight to see housewives shaking mops out of the windows over the sidewalks, and that's only one step away, don't you think?"

But the loud-speaking one suddenly became silent. The shot had gone home.—New York Sun and Globe.

Smoothing Concrete

Concrete in the rough was for a long time treated with carborundum or some other abrasive stone to remove from it unsightly surface board marks. Concrete houses where a cement wash or paint is later used are usually treated in this way.

An electric surfacing machine which works dry, that is, without the application of water, performs the task much more quickly and produces a more perfect surface. The cutter discs operate at a speed of 2,000 revolutions, under pressure. One set of cutters will do about 3,000 square feet of surfacing.

The discs revolve only when pressed upon the surface of the concrete, and operate absolutely square to it.

Petain Grows Roses

Marshal Petain, one of the outstanding [illegible] of the World war, has been awarded a medal by the French Agricultural society for developing a new species of blue roses. This rose, it was said, may be kept flowering for weeks. The marshal bought an abandoned farm on the Riviera, southeastern France, just after the war and his success with roses has been phenomenal. Perfume makers are organizing to market the Petain brands.

Some men think they know so much they ought to look through the encyclopedia for mistakes.

The Bulldog Breed.

A worried little man rushed into the saloon bar and ordered a "small lemon" in a voice shaking with suppressed fury.

"You look upset, sir," said a sympathetic bystander.

"I have good reason," was the reply.

"Why, what has happened?" asked the stranger.

"When I arrived home," answered the agitated little man, "I found a burglar in our house about to leave with all our silver.'

"What did you do?"

"Do? I threw his umbrella out of the window and"—vindictively—"I hope it will rain—so there!"—Pearson's Weekly.

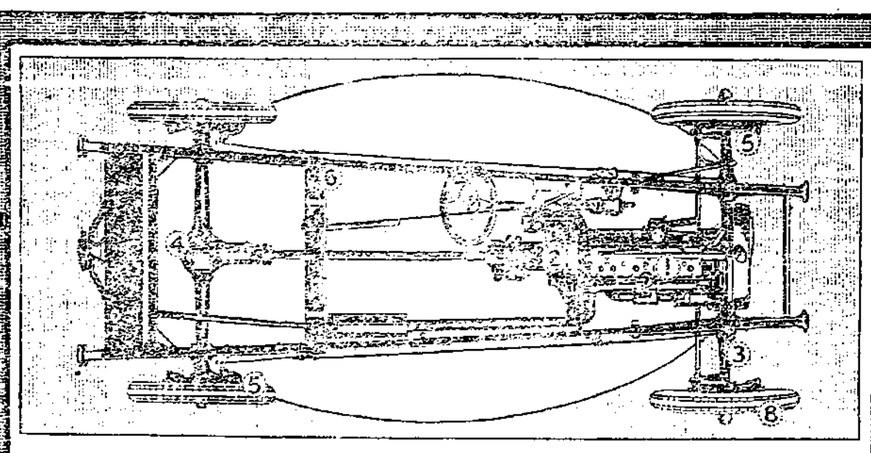
BOGGS & BUHL



Why Oakland's Chassis is more advanced

(1) Oakland's new L-head engine is a masterpiece of light-six engineering. It incorporates the very latest developments in motor design.

(2) The transmission is a unit with the engine. Gears of the finest alloy steel and liberal ball bearings, insure quiet and long life. Gear shifting is actually a pleasure.

(3) The rugged, drop-forged, "I" beam front axle was purposely designed for this car. Its correct construction insures easy steering and safe driving.

(4) Oakland's semi-floating rear axle is the last word in axle design. Its nickel steel gears, Hyatt and New Departure Bearings and spiral bevel gear drive make it silent and efficient.

(5) Oakland's four-wheel brakes are built into the chassis. Many months of service by tens of thousands of owners prove conclusively that this construction is most necessary and desirable.

(6) Oakland's frame is of pressed steel, 5-32 of an inch thick and is rigidly braced with five cross members. In comparing frames, do not neglect the fact that the thickness of the steel is very important.

(7) The steering gear is unequalled for easy and convenient driving. All engine controls, as well as horn button and lighting controls, are mounted on the steering wheel, an exclusive feature.

(8) Demountable disc steel wheels—five of them—are standard equipment on all models. On most cars you pay extra for them.

Long, easy-riding springs; Harrison radiator with heavily nickeled shell; completely enclosed universal joints and tubular drive shaft are other important features.

Examine the Oakland Six yourself. You will then understand why the True Blue Oakland is being chosen by so many who have decided to get the most and the best for their money this year.

The Wisent Nears Destruction.

The wisent is threatened with extinction. There are no herds of this European bison left and only about 50 head scattered widely in zoological gardens and preserves. Plans have been proposed in Germany to get some of these animals together and start breeding them. The success of the United States and Canada in bringing back the buffalo, encourages old world zoologists to think that the same methods used with our bison will be effective with theirs.
